

## Pulmonary & Critical Care Physician

### High-Acuity ICU – South Florida

#### Position Summary

We are seeking a **Board Certified or Board Eligible Critical Care Physician** to join a **busy, high-acuity intensive care unit** in South Florida. This role offers a **clinically rewarding practice** with extensive exposure to advanced **pulmonary, cardiac, neurologic, and oncologic critical care**, within a collaborative, multidisciplinary environment that includes close partnership with surgical and medical subspecialties.

#### Qualifications

- MD or DO degree from an accredited medical school
- **Board Certified or Board Eligible in Critical Care**, with primary board certification in one of the following:
  - Pulmonary Medicine
  - Emergency Medicine
  - Anesthesiology
  - General Surgery or another surgical specialty
- Completion of **additional formal training in Critical Care** (fellowship or equivalent pathway)
- Eligible for or holding an **unrestricted Florida medical license**
- Willingness to participate in **in-house ICU coverage** as well as **remote/tele-ICU coverage**, as part of a comprehensive coverage model
- Strong clinical judgment and comfort managing high-acuity, medically complex patients
- Excellent communication skills and a collaborative, team-based approach to care

#### Clinical Responsibilities

- Management of critically ill patients in a **high-volume ICU**, including:
  - Advanced pulmonary disease and respiratory failure
  - Complex cardiac and hemodynamic management
  - Neurologic critical care, including **comprehensive stroke care**
  - Oncologic critical care with exposure to complex medical and post-procedural oncology patients
- In-house ICU coverage with participation in a structured schedule
- Remote/tele-ICU coverage as part of an integrated critical care model
- Performance of advanced critical care procedures as appropriate
- Close collaboration with:
  - Surgery teams
  - Cardiologists
  - Neurologists and neurointerventional teams
  - Oncology and hematology services
- Participation in multidisciplinary rounds, care coordination, and quality and performance improvement initiatives

## **Practice Environment & Support**

- Busy ICU with **high-acuity, diverse pathology**
- Strong multidisciplinary care model with daily collaboration across medical and surgical specialties
- Experienced nursing staff and **advanced practice provider (APP) support**
- Access to advanced diagnostics, interventional services, and subspecialty consultation
- Emphasis on evidence-based care, patient safety, and provider well-being

## **Academic & Programmatic Opportunities (if applicable)**

- Teaching and mentorship of residents and APPs
- Participation in ICU education, quality improvement, and clinical research
- Leadership opportunities within ICU operations, protocol development, and service growth

## **Compensation & Benefits**

- Competitive compensation commensurate with experience
- Comprehensive benefits package

## **Visa Sponsorship**

- **Visa candidates will be considered**, including **J-1 waiver and/or H-1B sponsorship**, as applicable

## **Location**

South Florida offers an exceptional quality of life with **year-round warm weather**, beautiful beaches, and abundant outdoor and cultural activities. The region is known for **excellent schools**, family-friendly communities, and a vibrant, diverse lifestyle—making it an outstanding place to live and practice.
